# PREFACE.

I present herewith the fifth and last part of the Numismatic Cabinet of the late Prof. CHARLES E. ANTHON, President of the American Numismatic and Archæological Society. Had Prof. Anthon lived, several gaps, which will be noticed, would have been filled, and the condition of other pieces much improved. I do not think it necessary to mention here the many exceedingly fine and excessively rare pieces which will be found in the collection, as the catalogue speaks for itself. The South American and Mexican are particularly fine, and collectors will have an opportunity of purchasing some very rare specimens. In some instances I have abbreviated the metals, viz.: C. (Copper), Br. (Bronze), B. (Brass), N. (Nickel), W. M. (White Metal), and the number at the end of description refers to the size of the piece. I have tried to truthfully describe the pieces, and trust all who may purchase will be perfectly satisfied. All orders entrusted will be faithfully executed by

Yours truly,

GEORGE W. COGAN.
